PERFORMANCE DNA

Every Under Armour® product is doing something for you: it's making you better. The following are core pieces of DNA that deliver on this promise. The building blocks of performance.

ISO-CHILL

Fabric helps disperse body heat, making it feel cool to the touch.

UA HELIX

UA Helix Technology adapts to your body in real time—responding to skin vapor to rapidly wick sweat, accelerate dry time, and power nonstop airflow.

STORM

A tiered system of water & wind protection that keeps you dry in any wet weather situation.

UPF+

Protect Yourself. Built-in protection from UV rays.

**coldgear®
INFRARED**

ColdGear Infrared technology uses a soft, thermo-conductive coating to absorb & retain body heat.

FITTED

A slimmer, athletic cut that allows total mobility but eliminates the bulk of extra fabric.

GREEN FONT = NEW SP27 COLOR

PERFORMANCE DNA

Under Armour® Performance has already compensated in the design of its apparel to be consistent with normal (XS-3XL) sizing. Please order the size you would wear in a non-performance garment. All sizes are in inches.
